

Dear Patient,

As many of you know, I have decided to retire from my Bolton practice and move to New Brunswick to be close to family and begin enjoying retirement years. My greatest concern has been finding a replacement, someone who is competent, compassionate and will care for you the way I have. Frankly, I have searched diligently to ensure this happens. Persistence pays. Recently, I met the person that I have been looking for. After a little persuasion and an explanation of my needs, this experienced doctor has agreed to take over for me. He has already gotten busy with learning about my patients and their needs.

I am proud to introduce Dr. Vikas Puri to you, I am confident you will love him. What I am most excited about is all the experience, cutting-edge technology and skills he brings with him. I really want you to experience his impressive physical and computerized examination and treatment methods. This is just one of the reasons his Brampton locations won the award for best Chiropractic clinic in 2019. I know you are in good hands and will continue getting great results.

*Please try to book an appointment with me before I leave, so I can personally introduce you to Dr. Puri. If that is not possible, I request that you book an appointment with Dr. Puri for a **complimentary** reassessment, so your file can remain active, and you get to meet each other.*

It has been my honour and great pleasure taking care of you. If you are ever in the New Brunswick area, please drop by for a visit. Here is my personal contact information:

Cell Phone: 416-899-4432

Email: michael.shore55@gmail.com

I wish you all continued health and wellness always.

Sincerely,

Dr. Michael Shore
